## INTRODUCTION

The growth of the Indian economy in the near future requires substantial growth in energy supply. There is a need to enhance investment, to improve efficiency along the supply chain of energy and to bring in economic efficiency in the sector. Policy and regulatory framework plays a key role in achieving these objectives. The existing and emerging challenges in the Indian energy sector needs local solutions with insights from global experience. The regulatory institutions and policy makers have a key role to play in this direction.

This international symposium, a part of the **Energy Conclave 2010**, brings together national and international experts of repute. These include renowned academicians and accomplished practitioners. The symposium provides a platform for debating new paradigms for energy policy and regulation in the country.

## AGENDA

The agenda includes key issues covering policy and regulation across power, coal, oil & gas, renewable energy and climate change. It is proposed to cover the following issues,

1. A multi-sector energy regulator
2. New paradigms for regulating power sector
3. Towards a framework for pricing in the energy sector
4. A market for energy efficiency in India
5. National Action Plan on Climate Change
6. Renewable energy: a new regulatory approach

**Roundtable 1 :** Multi-Sector Regulator

**Roundtable 2 :** Energy Policy and Climate Change

## WHO SHOULD ATTEND

Academicians, regulators, senior officers from regulatory commissions, corporate entities in the energy sector – power, oil & gas, coal, renewable etc. banks, financial institutions, concerned government officials, equipment manufacturers, contractors, consultants, research.

## LEAD SPEAKERS
