## **The Introduction of OLED Manufacturing System for Mass Production**

***Myung S. Jhon, Jeong Og Choi***

Doosan DND Co., LTD  
Korea

### **Abstract**

LCD is rapidly changed to OLED due to wide view angle, fast response time and low power consumption. But efficiency and standardization of production process are major issues for penetrating market. To solve these problems, panel, equipment and material companies are doing everything possible. DOOSAN DND is leading the OLED equipment industry and provides solution from 2G PM production tool to AM and large size (3.5G to 5G) system.

2G AM Mass Production System
