

Post Doctoral Vacancies

The Centre is actively engage in frontline research and development activities related to Bio-medical applications of lasers, Nonlinear Spectroscopy, Quantum optics, Interferometric Tomography, Nonlinear and shape-based tomography, Fiber-optic communications, Photonics Sensors, Nonlinear Optics, Photonic Crystals, Opto-Electronics, Laser Ranging, Laser imaging and cross-section, Digital Holography, Quantitative Phase Imaging, Plasmonics, Femtosecond & Picosecond Ultrafast Laser spectroscopy etc.

Interested candidates are advised to get in touch with potential mentors and apply online through the portal <https://pingala.iitk.ac.in/IITKFR-0/login> by providing necessary documents such as

- (a) curriculum vitae
- (b) cover letter with a mention on preferred mentor(s)
- (c) research plan and
- (d) other relevant supporting documents.
