Dear Graduating Students,

With the situation limping back to normal, the Institute has decided to hold the 54th Convocation in a hybrid mode. The students can attend the ceremony either in person or virtually on the online platform to be made available for this purpose. Students who attend the ceremony virtually will receive their degrees through speed post.

To attend the Convocation ceremony in person, the graduating students have to ensure the following:

a) The student is fully vaccinated with two doses of COVID-19 vaccine, and

b) He/she has a negative RT PCR test report issued no more than 24 hours before the date of travel.

Much to our regret, it will not be possible to host the families of graduating students at the 54th Convocation because of the prevailing circumstances. The students attending the ceremony in person are, therefore, requested to travel to Campus by themselves.

As the date of the 54th Convocation is yet to be finalized, the students may please keep visiting the Convocation website for updates. The Consent Form for the Convocation has already been released. The form will remain open up to November 30, 2021.

For the students attending the Convocation in person, the dress code and other details will also be announced on the Convocation website. Registration for in-person participation will need to be done through another form to be released shortly.

Best wishes,

Dean, Academic Affairs
