NOTE

In order to streamline Medical Care in referred City Clinics /Hospitals for students, the following is advised:

1. For any advanced treatment, patient (student of IIT Kanpur) will need a referral from Health Centre. The patient should go to the doctor/hospital being referred to by the Medical Officer on Duty. Taking referral is a must when the reimbursement is claimed by the student.
2. The patient should not leave the referred hospital without taking the 'Medical Certificate', Discharge Slip and Reports of the investigations done.
3. In case the patient takes a 'leave against medical advice (LAMA)', the patient must be discharged ONLY by the parents or an authorised local guardian. No post-discharge services will be provided by the Health Centre, IIT Kanpur under these circumstances.
4. In case of LAMA, the student WILL NOT be treated/admitted in the Health Centre.
5. In case of LAMA, no reimbursements will be entertained against that request.
6. The use of ambulance is for 'medical emergency' only. The need of using the same will be decided by the on-duty doctor of the IIT Kanpur Health Centre.
7. For any non-critical condition, the ambulance may not be provided to the patients as they are reserved for any critical conditions that may arise for other student.
8. For referral to another doctor/hospital/clinic/centre for treatment as out-door patient (OPD), no ambulance will be provided. The patient can hire a taxi/auto on their own.
