Worldwide study on research stays abroad

Why are doctoral students (Dr or PhD) and postdocs interested in conducting research abroad? What information needs do they have when going abroad?

The German Academic Exchange Service (DAAD) and "Research in Germany" are conducting a worldwide online survey to answer these questions.

Are you currently pursuing or planning a doctorate or postdoc? Then we invite you to participate in the survey. With your help, we can further improve the services and assistance available to international researchers. The survey only takes about 15 minutes to complete.

Click here to take the survey: www.prognos.com/mobility/DAAD
