

have + been + 3rd/5th form

I have taken a house on rent from my friend.

I have been a guest in that house a few times earlier.

I have been living in the house since last Monday.

We take tea at 6 p.m. usually. Today we have taken tea early.

During the winter, we used to take tea at this time.

On the day of the earthquake, we took tea around 5:30.

We had taken tea much before the tremors started.

After tea, we had been chatting when we felt them first.

The watchman will have been noticing their activities

for quite some time before they (will) recognise him.

Why will he not have been recognised earlier?
