ABOUT DEPARTMENT

Set up in 1974, the Department of Industrial and Management Engineering (IME) at IIT Kanpur is one of the first in the country to recognize the strength of combining the training of engineers with management education. The class being a heterogeneous mix of engineers from diverse fields naturally enriches the learning environment, turning it into a fountainhead of vibrant ideas.

The MTech program is the flagship program of IME department. It is one of the oldest to introduce industrial engineering in India. The program provides a perfect blend of industrial engineering and management science to its students. The well-defined structure of course work and a year-long thesis work provides in-depth knowledge of concepts to students. The intervening summer internships is used for practical project work in industries.

The program focuses on developing expertise in Analytics and Operations fields. It covers diverse topics from both the management and engineering paradigms. Statistical modelling, improvement of productivity, quality and profitability in the manufacturing sector, supply chain management and application of optimization techniques and Business Intelligence tools in economics, finance, marketing and IT are some of the areas to which students are exposed.

STUDENT ACTIVITIES

Kunal Kotak, Core Team Member, Counseling Service, IITK

IME students (Sanket, Jitendra & Manish) on trekking

Urvashi Sharma and Himanshu presented the paper @IEOM Conference, Bangkok

Students Gymkhana, IITK MTech senators:
2017-18 -> Himanshu Rahangdale and Ankit Rathore
PLACEMENT STATISTICS (2017-19 BATCH)

- The Batch of 2017-19 had young energetic and dynamic candidates from different streams of engineering and has achieved 100% placement.
- A few students of the batch also had prior work experience in different Industries.
- The students of MTech, IME Department were offered various roles and profile based on their chosen area of interest.
