We have witnessed immense success, surpassing our expectations for the placement season 2022. I am thrilled to announce that we have recorded a YoY growth of about 25% despite these challenging and unprecedented times. Our Industry connection has only gotten more potent, and we are thankful to our recruiters and partners for trusting us with providing the deserving and brightest minds to the corporate world. We hope the pandemic situation keeps on diminishing and we get back to how things were back before the digital/virtual transition.

Indeed, the trends and requirements of the business world are ever-evolving. Our effort has since always been to match and stay up to date with our curriculum, ensuring preparing the students with not just what has already been, but also what’s the next big thing.

We at IIT Kanpur extend our gratitude to all our recruiters, alumni, faculty members and staff for identifying the potential of our students and supporting us in achieving this significant milestone. Furthermore, I would love to share the report for the Final Placement of Batch 2020-22.

B V Phani,
Head of Department,
DIME, IIT Kanpur
