**Special Offer for our Partners**  
**International Summer Schools at RWTH Aachen University**

Every year, we are happy to welcome undergraduate students from all over the world who want to seize the opportunity to spend an excellent academic summer in Germany at the top-ranked RWTH Aachen University. To encourage international student mobility and to promote the cooperation between the RWTH International Academy gGmbH and your institution, we would like to ease the way for your students to participate in our short programmes. All Summer School courses offered by the RWTH International Academy are uniquely designed for international undergraduate students who want to gain insight into one of Germany’s Universities of Excellence. We turn education into an experience!

**Would You Like to Benefit from our Special Group Packages?**

The Summer Schools at the RWTH Aachen University offer a truly dynamic and engaging academic and cultural environment for its international guests. During their stay in Aachen, your students have the opportunity to take part in state of the art and hands-on approaches to technical learning at one of Europe’s leading science and research institutions.

**Your advantages:**

- A 15% discount on the total fee, with participation of at least 10 qualified students from your institution. The special offer covers: all lectures and laboratory courses, accommodation, breakfast, lunch, all meals during social events, field trips, social events, and a local public transport ticket for the duration of the programme.
- Free choice: All of our programmes are open for your institution and students can individually decide which subject they would like to specialise in.
- The possibility to combine two or more different programmes.

**Conditions:**

- Participation of at least 10 students eligible for the respective Summer School programmes (fees to be transferred in a single payment by your institution)
- Support in the selection process of your participants (preselection according to the criteria of the RWTH International Academy)
- A contract between the partner university and the RWTH International Academy

*Not included are travel expenses to and from Aachen. Participants have to provide their own meals on weekends and in the evening and have a personal budget for their individual needs.*
Programme Structure

**Excellent Science and Research**

Our Summer School courses in Mechanical Engineering, Natural Sciences and Management offer international students the opportunity to take part in excellent science and research at the RWTH Aachen University. The University is highly acclaimed internationally for its development of innovative answers to the most pressing global challenges. Its success in Germany’s Excellence Initiative reflects its outstanding reputation for research and education in the fields of science, technology, and engineering.

**German Language and Culture**

Thanks to the university’s “BeBuddy” programme, international students have the chance to immerse themselves in the vibrant student community. Participants will get to know Aachen from a student’s perspective: They learn more about academic and cultural practices in Germany with the support of their German “Buddies” who are typically students enrolled at the RWTH Aachen University and offer first-hand experiences in and around the campus, conveying an authentic picture of university life.

**Social Events**

During the Summer School programmes, the RWTH International Academy offers different cultural events in Aachen and its surroundings (the three-border region where the frontiers of Germany, Belgium and the Netherlands meet); visits to UNESCO World Heritage sites and excursions to Cologne, Düsseldorf or Bonn; on-site company visits at RWTH’s industrial partners; intercultural training; cooking and dancing nights, sport events, BBQs, and many other activities.

Programme Offer 2017

| 2-week programmes | Systematic Product Innovation  
| Mechatronic Systems Engineering and Product Innovation  
| Smart Electrical Power Systems - NEW -
