Title

Non-cognitive Discourse
Freed-om and Determinism
Ethics, Meta-ethics and moral life
Bhartiya Samaj Aur Sanskriti (Book)

Authors

Dr. R. Prasad
Dr. K. N. Sharma
Mr. O. P. Tayal

Journals

A Journal of Indian Academy of Philosophy
Journal of Philosophical Association
Proceedings of the Delhi Philosophical Colloquium

Mathematics

The effect of small steady disturbances in compressible fluid
substitution principles for steady magnetogas dynamical flow
theorem on the stability of two dimensional non-Newtonian fluids

Prof. J. N. Kapur
Prof. J. N. Kapur with Shashi Goel

The Mathematics Seminar, III, 1-8 (1963)
Applied Scientific Research, IX B, 444 (1963)
Flow of Reiner-Rivlin Fluids in a magnetic field

Similar solutions for boundary layer flows of power law fluids

Tangential flow of a power law fluid in an annulus

Boundary-layer velocity profiles for the flow of power law fluids in the inlet length of a straight channel

The internal ballistics of solid fuel rockets

Characterisation of axially-symmetric self-superposable flows in magnetohydrodynamic

Rotational flow of viscous incompressible fluids in which the velocity magnitude is "constant along stream lines

Form function for quadratubular charges

On the unsteady flow of viscous incompressible fluids in an annulus under toroidal pressure gradient

Prof. J. N. Kapur

Prof. J. N. Kapur

Prof. J. N. Kapur with R. C. Srivastava

Prof. J. N. Kapur with P. N. Srivastava

Prof. J. N. Kapur with R. C. Gupta

Prof. J. N. Kapur

Prof. J. N. Kapur

Prof. J. N. Kapur with B. S. Jain

Prof. J. N. Kapur with P. N. Srivastava

Z AMP XIV 383-388 (1963)

Z A M M XLIII, 237-238 (1963)

The Mathematics Seminar III, 28-37 (1963)

Ganita XIII (1962)
Title

Motion of power law fluid past a suddenly accelerated plane wall

Axially symmetric and two-dimensional stagnation point flows for a certain visco-elastic fluid

On the solution of a problem of textile industry by linear programming

Flow of power law fluids past a flat plate with uniform suction and between two parallel plates with uniform suction and injection

Flow of a conducting viscoelastic fluid between two plates under a transverse magnetic field and with suction and injection

Two dimensional stagnation point flow of a certain visco-elastic fluid with large suction

Flow of viscous incompressible fluids in an annulus with variable suction and injection along walls

Flow of a non-Newtonian fluid between two rotating cylinders with suction and injection

Authors

Prof. J. N. Kapur

Prof. J. N. Kapur with R. C. Srivastava

Prof. J. N. Kapur with R. K. Rathy

Prof. J. N. Kapur with R. C. Gupta

Prof. J. N. Kapur with B. L. Bhatia

Prof. J. N. Kapur with Shashi Goel

Title

Flow of a conducting visco-elastic fluid through a porous annulus under a radial magnetic field

Unsteady flow of a conducting fluid between two parallel plates under a transverse magnetic field

Conical step bearing using a power law lubricant

4ciples of hydromagnetic lubrication

An exact solution for the hydromagnetic flow of an electrically conducting fluid between two porous plates

Non-stationary flow of a conducting fluid in a porous annular tube

Unsteady flow of a conducting fluid between two non-conducting porous plates in the presence of a transverse magnetic field

Flow between two parallel porous plates with varying pressure gradient under a transverse magnetic field

Similar solutions of the boundary layer equations for powerlaw fluids

Axially symmetric and two dimensional stagnation point flows of a certain visco-elastic fluid
