

Indian Institute of Technology Kanpur Chandrakanta Kesavan Lecture Series

April 09, 2024(Tuesday)

05:30 PM

Online

Speaker : Mr Pawan Joshi

My experiences with the Automobile Industry

About the Talk

This talk focuses on my hands-on job experiences with Tata motors. It delves into the educational background as a foundational step, followed by the transition into the dynamic environment of the industry. The narrative explores the industry's landscape, offering insights into its challenges and opportunities. Personal experiences within Tata Motors provide context, illustrating the practical application of academic knowledge and skills.

About the Speaker

Mr. Pawan Joshi is currently working as senior manager with Tata Motors, Pune. His work focuses on employing advanced techniques in connectivity and validation, extract insights from telemetry data, designing and executing outdoor testing protocols to ensure seamless connectivity, and comprehensive CAN data analysis. He also worked on EV model development for GBT charger and application software for compact EV charger testing model. Pawan has obtained his M. Tech degree in Power Systems from NIT Warangal and B. Tech in Electrical Engineering from the Dehradun Institute of Technology. His team secured 4th position out of 600 teams in Road Safety Hackathon challenge organized by Bosch at IIT Guwahati from February 2019 to April 2019.
