

2024-26

SUMMER PLACEMENT REPORT

**DEPARTMENT OF
MANAGEMENT SCIENCES**

MESSAGE FROM HOD, DOMS

DR. B.V.PHANI

HEAD & PROFESSOR

DEPARTMENT OF MANAGEMENT SCIENCES

IIT KANPUR

On behalf of the Department of Management Sciences at IIT Kanpur, I would like to place on record our heartfelt gratitude towards the industry for validating the unique potential of our curricula that integrates technology, engineering, and analytics in management decision-making with the vision of spawning a new generation of successful managers with significant analytical skill and decision-making capabilities. Given the fact that effective management has moved more towards being more of a science with the continuing exponential explosion in data rather than an art, we believe that our move in this direction leveraging the underlying technical strength and resources at IIT Kanpur helps us train our students providing them with a unique skill set critical to industry in managerial decision-making process. This has been substantiated time and again by not only a significant increase in the number of companies who come to campus but also the 100% placements we have been able to continuously achieve. We have been blessed with the largest number of offers and highest year on year percentage growth in the packages offered to our students corroborating the value proposition offered by us to the industry. With your unflinching support and encouragement in fostering this symbiotic relationship we hope to continue this in the near future too.

MESSAGE FROM FACULTY PLACEMENT COORDINATOR, DOMS

DR. SUVENDU NASKAR

ASSISTANT PROFESSOR

DEPARTMENT OF MANAGEMENT SCIENCES

IIT KANPUR

We are pleased to share the successful completion of the Summer Placement Season for the MBA Batch of 2024–26. Despite ongoing market challenges, we achieved 100% internship placements for all 57 students through the dedicated efforts of our Placement Committee.

A total of 22 recruiters participated this year, offering a wide range of profiles such as strategy consultant, brand manager, investment analyst, risk analyst, product manager, data analyst, business development associate, founder's office intern, and management trainee. These opportunities came from diverse sectors including e-commerce, BFSI, FMCG, manufacturing, consulting, and analytics.

With a smaller batch size as compared to last year, the quality, package and the relevance of the internship roles marked a significant step forward. Strong academic preparation, personalized guidance, and focused engagement helped students secure roles well aligned with their aspirations.

This year also marks the 50th year of the Department of Management Sciences. This milestone season reinforces our tradition of academic excellence and industry relevance.

We sincerely thank our recruiters, alumni, faculty, staff, and the student placement team for their unwavering support. The continued trust of our industry partners is a reflection of the credibility of our alumni and the strong brand of our MBA program. We invite you to explore more about the Summer Placements for the MBA Batch of 2024–26 and join us in celebrating another successful year.
