

Indian Institute of Technology Kanpur

INSTITUTE LECTURE SERIES

April 12, 2023 (Wednesday) | 6.00 pm |

Speaker: Professor Luiz A. DaSilva

Talk Title: Securing 5G and Future Generations of Network

Executive Director of the Commonwealth Cyber Initiative (CCI)

Bradley Professor of Cybersecurity, Virginia Tech

Ex-director of CONNECT Communications and Networks Research Centre

Ex-Professor of Telecommunications (personal chair), Trinity College Dublin

About the Speaker

Prof. DaSilva is internationally recognized for his contributions to wireless communications and network research. He pioneered the application of game theory to wireless networks; he is also known for seminal work on cognitive networking, and spectrum and network sharing. Prof. DaSilva has authored two books and published over 300 peer-reviewed articles. He is an IEEE Fellow for his contributions to cognitive networking and wireless resource management. He was also a Trinity College Dublin Fellow and an IEEE Communications Society Distinguished Lecturer.

RM-101 (Rajeev Motwani Building)

All are cordially invited to attend
