

Supercritical Fluid Extraction-SFE 500 MR

Important Features

- High Pressure CO₂ Pump
- Cooling Heat Exchanger
- Electrical Heat Exchanger
- High Pressure Extraction Vessel 500ml
- High Pressure Reaction Vessel with windows 100ml
- High Pressure Valves
- Back pressure Regulator
- High Pressure Fraction Collection Vessel 500ml
- Particle Collector
- RESS Configuration
- Manual BPR (Back Pressure Regulator)
- Six-zone Temperature Controller
- Electrical Heating
- Control System and software
- Skid, tubing, fittings, Assembly and testing
- 220 Volt System

Location:

Department of Chemical Engineering
IIT Kanpur
