WALKING ON THE MOON

IIT Kanpur - 2026

CHRISTOPHER KACZMAREK

**Department of Humanities
and Social Sciences
Discipline of Fine Arts**

A full-scale reconstruction of the Apollo 11 EVA walking path is drawn across the Main Auditorium Lawn at IIT Kanpur.

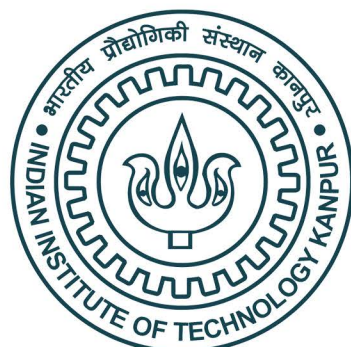

A path that required traveling 240,000 miles to the Moon is rendered here as a modest, accessible trace.

What was once a distant and singular event becomes a shared, repeatable gesture.

Visitors are invited to walk the path, transforming an event defined by distance and mediation into an embodied experience.

The work invites a reconsideration of scale, access, and the conditions through which exploration is encountered.

Conceived and presented by
Fulbright-Nehru Scholar
Prof. Christopher Kaczmarek
Hosted by Prof. Ritwij Bhowmik

Main Auditorium Lawn
May 20, 6:00PM-9:00PM
May 21, 6:00AM-9:00AM

ALL ARE CORDIALLY INVITED
