1. Visit the link https://wireless.engineering.nyu.edu/nyusim/

2. You need to fill a form, as shown below, and submit for downloading the NYUSIM package.

   ![Form Image]

3. After extracting the downloaded package, you will see the following folders.

   ![Folder List Image]

4. Use “NYUSIM_v3_WIN_Installer” for installation. You may need to click on “Next” several times.

5. After installation, open the simulator from windows start button as shown below, or from the installation folder, which will be by default C:\Program Files\NYU WIRELESS\NYUSIM_v3_WIN\application.
6. The simulator window will appear as shown below
