

C Chandraprakash

CONTACT	211, Northern Laboratories I	Voice: 0512-259-6743
INFORMATION	Department of Mechanical Engineering Indian Institute of Technology Kanpur Website: https://chandraprakashster.wixsite.com/chan	E-mail: chindamc@iitk.ac.in Fax: 0512-259-7408
RESEARCH INTERESTS	Instrumentation: Computer vision, soft robots. Metamaterials: Acoustic metamaterials, sound absorption, biomimetic design Non-destructive evaluation: Thermography, ultrasonics, soft robots, computer vision Multifunctional biodegradable materials for electromagnetic, acoustic, and thermal insulation. My approach is holistic. I apply numerical techniques, build mathematical models, and perform experiments towards building products.	
EDUCATION	Doctor of Philosophy in Engineering Science and Mechanics Pennsylvania State University, University Park, PA, USA <ul style="list-style-type: none">Dissertation: Multifunctional Parylene-C microfibrinous thin filmsAdvisors: Prof. Osama O. Awadelkarim and Prof. Akhlesh Lakhtakia Bachelor and Master of Technology in Mechanical Engineering Specialization: Product Design Minor: Industrial Engineering Indian Institute of Technology Madras, Chennai, India <ul style="list-style-type: none">Dissertation: Modeling thermomechanical response of stainless steel subjected to monotonic tensile and cyclic loadingAdvisors: Prof. Krishnan Balasubramaniam and Prof. Chitti Venkata Krishnamurthy	Aug 2011 - Feb 2017 Aug 2005 - May 2010
ACADEMIC AND RESEARCH EXPERIENCE	Associate Professor, Mechanical Engineering Indian Institute of Technology Kanpur Assistant Professor, Mechanical Engineering Indian Institute of Technology Kanpur Visiting Assistant Professor, Mechanical Engineering Indian Institute of Technology Kanpur Distinguished Teaching Fellow, Research and Teaching Assistant College of Engineering & Center for Nanotechnology Education and Utilization Pennsylvania State University Project Officer & Research Assistant Center for Non-Destructive Evaluation, Indian Institute of Technology Madras	July 2024 - present Dec 2017 - June 2024 Oct 2017 - Dec 2017 Aug 2012 - Apr 2017 May 2008 - Jul 2010

SPONSORED
RESEARCH

1. Multisensor characterization of solid materials for non-destructive evaluation. ₹22 Lakhs. Sponsor: IIT Kanpur (under Initiation grant). 2018-2021. (Single PI)
2. Soft acoustic metamaterials: Fabrication, computation, and instrument development. ₹36 Lakhs. Sponsor: SERB (under ECRA scheme). 2019-2022. (Single PI)
3. Practical modeling aspects of thermomechanical NDE and vibrothermography ₹6 Lakhs. Sponsor: SERB (under MATRICS scheme). 2023-2026. (Single PI)
4. Development of UHMWPE fibers and disentangled melt for impact mitigation ₹65 Lakhs. Sponsor: NTTM, Ministry of Textiles. 2023-2025. (Co-PI)
5. Scientific Research for development of agro-residue-based punnets for sustainable packaging of fruits and vegetables ₹23 Lakhs. Sponsor: SLR Infrastructure Pvt. Ltd., CSR. 2024-2025 (PI)
6. Development of foam-in-place packaging using agricultural residue ₹49.5 Lakhs. Sponsor: National Technical Textiles Mission, Ministry of Textiles. 2024-2025 (PI)

CONSULTANCY

1. Silicon carbide coating on the carbon-fiber fabric. ₹3.5 Lakhs. Sponsor: L & T Defense. 2018. (PI)
2. Mechanical and thermal properties of enclosure materials of an optical cable. ₹1 Lakh. Sponsor: Sterlite. 2018. (Co-PI)
3. Consultancy for finite element-based design optimization and testing of extruder frame and godet stand. Sponsor: Lohia Corp Limited, Kanpur, ₹10 Lakhs. India 2021-22 (Equal Co-PI)
4. Study and validation of technical task 227 & 214 recommended by OEM & identification of alternate methods. ₹35 Lakhs. Sponsor: 11 BRD, Air Force. 2019-2021. (Equal Co-PI)

FACILITIES

Acoustic impedance tube

DEVELOPED AT IITK

- Built per ASTM standards. Suitable for measurement of sound absorption and transmission loss in 100 – 2000-Hz regime

Resonant ultrasound spectroscopy

- Used for identifying all the possible 21 elastic constants of a solid

CONFERENCE
PRESENTATIONS
FROM IITK

4 Invited Talks

1. AA Chandak and C Chandraprakash. Artificial Intelligence To Estimate The Stiffness Matrix Of Composites, *3rd International Conference & Exhibition on NDE 4.0*, Taj Yeshwantpur, Bengaluru, India (March 2025)
2. BM Bharti, T Bhuvana, and C Chandraprakash. Glycerol-added Chitosan Films for Food Packaging: Burst and Physicochemical Characteristics, *International Conference on Experimental Mechanics (ICEM)*, IIT Madras, India (Oct 2024)
3. V Anand, CV Krishnamurthy, and C Chandraprakash. Tensile tests of steel wire ropes, *International Conference on Experimental Mechanics (ICEM)*, IIT Madras, India (Oct 2024)
4. PS Konchada and C Chandraprakash, Machine learning for resonant ultrasound spectroscopy of isotropic materials, *Indian Conference on Applied Mechanics (INCAM)*, NIT Warangal, India (Jul 2024) — Won first prize in the mini-symposium on undergraduate research presentation
5. S Beniwal, K Dixit, N Sinha, and C Chandraprakash. Alumina-based ultrasonic metamaterials: phononic and locally resonant phononic crystals, *Indian Conference on Applied Mechanics (INCAM)*, NIT Warangal, India (Jul 2024)
6. C Chandraprakash. Soft robots for NDE & rescue operations, *1st Mechanical Sciences Young Investigators Meet (MSYIM)*, Kanpur, India (Mar 2024) — Invited Talk
7. C Chandraprakash. Computer vision for structural health monitoring: On-site smartphone-based measurements, *33rd Annual Conference & Exhibition on Non-Destructive Evaluation*, Pune, India (Dec 2023) — Invited Talk
8. A. Kumar and C Chandraprakash. Computer vision for estimation of liquid contact angle, *33rd Annual Conference & Exhibition on Non-Destructive Evaluation*, Pune, India (Dec 2023)
9. C Chandraprakash. Soft biodegradable acoustic materials, *10th Soft Matter Young Investigators Meet 2023 (SMYIM)*, Uttarakhand, India (Jun 2023) — Invited Talk
10. S Beniwal, K Dixit, N Sinha, and C Chandraprakash. Direct-ink based manufacturing of ceramic phononic crystals, *4th Structural Integrity Conference and Exhibition (SICE)*, Indian Institute of Technology Hyderabad, India (Dec 2022) — Invited Talk
11. V Sharma and C Chandraprakash. Fabrication of microscale metallic phononic crystals using wire electric discharge micromachining process, *12th International Conference on Precision, Micro, Meso and Nano Engineering (COPEN)*, Indian Institute of Technology Kanpur (Dec 2022).

12. S Kumar, C Chandraprakash, and J Ramkumar. Integration of roughness measurement in plasma electrolytic polishing, 12th *International Conference on Precision, Micro, Meso and Nano Engineering* (COPEN), Indian Institute of Technology Kanpur (Dec 2022).
13. V Sharma and C Chandraprakash. On the fabrication and analysis of microscale metallic phononic crystals using wire electrochemical micromachining, 5th *Indian Conference On Applied Mechanics* (INCAM), National Institute of Technology Jamshedpur (Nov 2022).
14. V Sharma and C Chandraprakash. Pulse thermography for corrosion detection in a multilayer structure, 32nd *Annual Conference & Exhibition on Non-Destructive Evaluation*, Ahmedabad, India (Nov 2022).
15. MZA Khan and C Chandraprakash. Ultrasonic TOFD for corrosion detection in a multilayer structure, 32nd *Annual Conference & Exhibition on Non-Destructive Evaluation*, Ahmedabad, India (Nov 2022).
16. V Sharma, VRS Raju, S Amit, and C Chandraprakash. Ultrasonic TOFD and guided waves for corrosion detection in a multilayer structure, 20th *Accepted for World Conference on NDT* (WCNDT), Seoul, South Korea (June 2020).

CONFERENCE
PRESENTATIONS
BEFORE IITK

1. I H Khawaji, C Chandraprakash, O O Awadelkarim, and A Lakhtakia. Engineering the dielectric and mechanical properties of Parylene-C columnar microfibrinous thin films by controlling the deposition angles, *Materials Science & Technology: Advances in Dielectric Materials and Electronic Devices*, Pittsburgh, USA (October 2017).
2. C Chandraprakash, A Lakhtakia, and O O Awadelkarim. Charge-storage and absorption characteristics of Parylene-C columnar thin films, *Center for Dielectric and Piezoelectrics, Spring Meeting*, University Park, USA (April 2017).
3. C Chandraprakash, N M Wonderling, A Lakhtakia, O O Awadelkarim, and W Orfali. Columnar multifunctional microfibrinous Parylene-C thin films: Microfiber inclination, crystallinity, and water wettability, *Materials Research Symposium: Multifunctionality in Polymer-Based Materials, Gels and Interfaces*, Boston, USA (December 2015).
4. I H Khawaji, C Chandraprakash, W Orfali, A Lakhtakia, and O O Awadelkarim. The effects of morphology on the dielectric and mechanical properties of Parylene-C microfibrinous thin films, *The Electrochemical Society*, Cancun, Mexico, no. 11, 683–683 (October 2014).
5. C Chandraprakash, N R Brown, O O Awadelkarim, W Orfali, and A Lakhtakia. Mechanical properties of microfibrinous films of Parylene C for acoustic applications, *Materials Science & Technology: Mechanical Behavior of Technological Coatings and Thin Films – Relating Synthesis, Structure, and Mechanical Property Relationships*, Pittsburgh, USA (October 2014).

OTHER
PUBLICATIONS

1. Ph.D. thesis: Multifunctional Parylene-C microfibrinous thin films, Pennsylvania State University (February 2017).

2. Book review: Fourier modal method and its applications in computational nanophotonics, *Journal of Nanophotonics*, 7 (1), 9898 (2013).

INVITED TALKS &
LECTURES

1. "NDE: Acoustics, ultrasonics, thermography and computer vision" at Department of Mechanical Engineering, Amrita Vishwa Vidyapeetham, Amritapuri Campus (Nov 2024)
2. "Acoustics: Metamaterials and Biodegradable Materials" at Department of Mechanical Engineering, IIT Madras (Oct 2024)
3. "Resonant ultrasound spectroscopy to identify the elastic properties of anisotropic materials" at the 5th workshop of Indian Society for Advancement of Materials and Process Engineering (ISAMPE), Hyderabad Chapter in Advanced Systems Laboratory, DRDO Hyderabad (Oct 2024).
4. Elastography in "Introduction to Biomedical Imaging: Tomography and Microscopy Perspectives" – a short-term course at IIT Kanpur (Oct 2023).
5. "Bandgaps and scattering calculations of phononic crystals using COMSOL Multiphysics" at the 10th Webinar of *COMSOL Multiphysics Users Meet* (Sep 2023).
6. "Plane-wave expansion method for multifunctional metamaterials", QIP Short Course on "Electromagnetic Metamaterials: Microwave-Infrared-Optical Applications" in IIT Kanpur, Uttar Pradesh, India (Aug 2019).
7. Multifunctional metamaterials of Parylene C, Millersville University, Pennsylvania, USA (Mar 2017).

RECOGNITION &
MEDIA COVERAGE

- **Acoustic absorbers:** Work by Surendra Kumar et al. has been picked by the ACS editors for the ACS News. The work is also highlighted in the international and national science news: Phys.org, ScienceDaily, Technologynetworks, Eurekaalert, Natureworld, Swifttelecast, Chemistryviews, New Atlas, ScienMag, Bioengineer.org, and Miragenews. It also attracted attention to the seaweed and music communities.
- **Multifunctional phononic crystals:** Work has been selected among the best 52 papers from 209 eligible papers in all areas of applied physics by Editors and Editorial Advisory Board Members of JAP. 2022 Early Career Investigator Selection.

TEACHING AT IITK **Lab coordinator**, Mechanical Engineering, IIT Kanpur May 2021 - present

- ME222A – UG – Nature and properties of materials

Instructor, Mechanical Engineering, IIT Kanpur Jan 2018 - present

- ME222A – UG – Nature and properties of materials (Lab and lectures)
- ME321A – UG – Advanced mechanics of solids (Theory of elasticity: Lab and lectures)
- ME333A – UG – 1/3: Materials testing laboratory (Lab)
- ME621A – PG – Introduction to solid mechanics (Theory of elasticity)

- ME683A – PG & UG – Techniques in non-destructive evaluation (new course developed)
- ME698E – PG & UG – Fabrication and mechanics of thin films (new modular course developed)
- ME723A – PG – Wave propagation in solids
- ME801 – PG – Mechanical Engineering Postgraduate Seminar

Tutor, Mechanical Engineering, IIT Kanpur

Jan 2018 - present

- ME351A – UG – Design of machine elements
- ESO202A – UG – Mechanics of solids (Strength of materials)
- ESO209A – UG – Dynamics
- TA111 – UG – Engineering Graphics

Training for HAL employees

- Materials selection and characterization – Labs and lectures May 2022 & Jan 2023, Aug 2024
- Mechanical characterization Lab Aug 2024

TEACHING BEFORE IITK **Distinguished Teaching Fellow**, College of Engineering, Penn. State

- E MCH 211 – Statics Spring 2016

Teaching Assistant, Engineering Science and Mechanics, Penn. State

- E SC 211, 212, 213, & 214 – Nanotechnology Summer 2016
- E MCH 315 – Mechanical response of materials Fall 2011 and Spring 2012
- E MCH 211 – Statics Spring 2015
- E MCH 212 – Dynamics Fall 2016
- E SC 400, 404H – Electromagnetics & Engg. Math. (Part time) Spring 14 - Spring 2016

NON-THESIS
SUPERVISION

- Manan Agarwal – Project Associate – SERB ECRA (Sep 2019 - March 2022)
- Karan Ahuja – Research Assistant – Soft robots for rescue operations – TEQIP (Jan 2020 - June 2020)
- Vinoba Pandey – B. Tech – Investigation of a surface energy constant (Dec 2020 - present)
- Faizan Ahmed – B. Tech – Solution of Airy stress function using polar Fourier Transform (Jan 2022 - Aug 2022)
- Kousar Jahan – Project Scientist – SERB ECRA (March 2021 - Jan 2022)
- Nitisha Mehrotra – Project Scientist – SERB ECRA (March 2022 - July 2022)
- Keerthy Bikumalla – Project Associate – PDA (Aug 2022 - May 2023)
- Anjali Tiwari – Project Associate - SERB ECRA (Sep 2022 - present)
- Arnav Pandey – B. Tech – Soft robot for the rescue of a child trapped in a borewell (May 2022 - May 2024)
- Prajwal Konchada – B. Tech – Soft robot for the rescue of a child trapped in a borewell (May 2023 - May 2025)
- Brij Mohan Bharti – (Self funded) – Chitosan thin films and coatings (Sep - Dec 2022 & Jan 2024 – July 2024)

B. Tech Projects: ME451 & ME452

- 2018-19: Rahul Shekar, Abhinav Thakur, and Rajesh Mishra.
Title: Design and development of a street sweeping machine
- 2019-20: Pinaki Shaw and Prateek Sharma.
Title: A growable soft robot to clench and move weights

COMPUTATIONAL SKILLS MATLAB, Shell scripting, COMSOL, C, Scheme, Mathematica

SKILLS

TECHNICAL SKILLS

- Fabrication:** Fibrous and conventional Parylene C chemical vapor deposition, 4 years experience in class 1000/100 cleanroom and dealing with vacuum systems
- Characterization:** SEM imaging, Profilometry, C-D and dielectric breakdown, Dynamical mechanical analysis, Infrared spectroscopy – ATR and Transmission, X-Ray diffraction – WAXS, Contact angle measurements, Bulk mechanical testing, Infrared thermography, Energy dispersive spectroscopy
- Hands-on experience in laboratory and field

AWARDS AND HONORS

1. Paul A. Lester Memorial Award for best PhD research in microelectronics in Department of Engineering Science and Mechanics, Penn State University 2017
2. Distinguished Teaching Fellow in College of Engineering, Penn State for 2015-16
3. Won 3rd prize for poster presentation in *ESM Today*, graduate research symposium of Department of Engineering Science and Mechanics, Penn State University 2017
4. Won 2nd prize for poster presentation in *ESM Today* 2013
5. Won Project-X, a hands-on design competition in WAVES – Technical festival of Department of Naval Architecture and Ocean Engineering, IIT Madras 2008
6. Recipient of Merit cum Means award from IIT Madras 2005-09
7. Secured 132nd rank among 2,00,000 students in Graduate Aptitude Test Examination 2008
8. Secured 143rd rank among 4,50,000 students in All-India-Engineering-Entrance-Examination 2005

CO-CURRICULAR ACTIVITIES

1. Outreach: Demonstrated the work on fabrication and characterization of biodegradable acoustic and packaging materials under the theme “Green Materials and Instrumentation” in IITK Samanvay, an industry engagement event (Nov 2024)
2. Outreach: Demonstrated acoustic measurements and presented poster to high school students as part of Science Open House, IITK (Feb 2020) – with Manan Agarwal
3. Reviewer for journals:
ACS Applied Materials & Interfaces, Applied Physics A, Journal of Elasticity, Review of Scientific Instruments, Journal of Applied Physics, Materials Characterization, ACS Applied Nano Materials, Experimental Mechanics, Journal of Applied Polymer Science, Materials

Letters, Sadhana, Applied Surface Science, Physical Chemistry Chemical Physics, International Journal of Systems Science, International Journal of Adhesion and Adhesives, Journal of Micromanufacturing, and IEEE Transactions on Instrumentation and Measurement

PROFESSIONAL
SOCIETIES &
CONFERENCES

1. Co-organizer for the 1st Mechanical Sciences Young Investigators Meet at IIT Kanpur and developed the website <https://sites.google.com/view/msyim/>
2. Co-organizer for the 1st mini-symposium on undergraduate research presentations at IN-CAM 2024 & Advisor for the Conference
3. Joint Secretary for Indian Society for Applied Mechanics, 2024-26
4. Website editor for Indian Society for Applied Mechanics, 2023-present
 - (a) Designed and developed the official website for the Indian Society for Applied Mechanics single-handedly <https://www.isam.co.in/> 2023
5. Executive Committee member from IITK in Indian Society for Applied Mechanics, 2022-26
6. Life Member, Acoustical Society of India from 2023
7. Life Member, Indian Society of Applied Mechanics from 2022
8. Life Member, The Indian Society for Theoretical and Applied Mechanics from 2022
9. Life Member, Indian Society for Non-Destructive Testing from 2022
10. Member, Mechanical Engineering Division, The Institution of Engineers (India) from 2020
11. Member of 'The Materials Research Society' for 2015–17
12. Student member of Material Advantage Program (TMS, ACerS, AIST, ASM) for 2014–17

KEY
ADMINISTRATIVE
ACTIVITIES

1. Website coordinator in Mechanical Engineering IITK, 2020-25
2. UG Laboratory coordinator for the Materials Testing Lab 2021-present
3. Seminar coordinator in Mechanical Engineering IITK, 2019-20
4. Anchor for Diamond Jubilee Institute Foundation day, IITK, 2018
5. Co-organized EC Subbarao lecture in MSE, IITK, 2018
6. Judge for: Student awards (2018), Techkriti competitions (2018 & 19), Smart India Hackathon (2018 & 19), and Project Scientist (2018 & 19) – IITK
7. President (Aug'13 - May'14) and Vice-President (Aug'14 - May'15) Engineering Science and Mechanics Graduate Student Council, Penn State

INDUSTRIAL
EXPERIENCE

Technical Manager in Noise Vibration Harshness department
Engineering Research Center, Tata Motors Ltd., Pune, India

Sep 2010 - Jul 2011

- Quantitative analysis for noise and vibration characteristics of small commercial vehicles
- Developed technical reports, presentations, and proposals for field and external collaborations

Internship Trainee
Engineering Design Centre, Caterpillar India Private Ltd., India

May 2008 - Jul 2008

- Designed anti-toppling mechanisms and developed stability criteria for shop floor structures
- Performed 'Value Stream Mapping' for the Virtual Manufacturing Engineering group
