Personal Profile

Date of Birth: 20th September 1969

Marital Status: Married

Citizen: Indian

Objectives

My background in probability, statistics and optimization helps me to contribute in areas related to stochastic, big data analysis, robust optimization, statistical inference, sequential analysis, quantitative finance, etc. With my twenty two years of research and teaching experience in one of the best technical institutes in Asia, plus research visits and teaching assignments at Princeton University, USA; University of Warszawa, POLAND; IST, Lisboa, PORTUGAL; TU Dresden, GERMANY; Bilkent University, TURKEY; MUST, IRAN; IIM Calcutta; IIM Ahmedabad, IIT Bombay, etc. has helped me to build expertise in both theoretical as well as applied areas of statistical inference, robust and reliability based optimization, etc.
