J. Kuroiwa (Peru)
A.I. Martemianov (USSR)
J. Petrovski (Yugoslavia)
J. Prince (Mexico)
R.I. Skinner (New Zealand)

The International Association for Earthquake Engineering brings together national organizations from 34 countries with the object of promoting international cooperation among scientists and engineers through interchange of knowledge, ideas, and the results of research and practical experience. In addition to the principal activity of sponsoring the World Conferences on Earthquake Engineering at 4-year intervals, IAEE publishes regularly the book *Earthquake Resistant Regulations—a World List*, has issued a special monograph on "Basic Concepts of Seismic Codes," and sponsors such activities as the International Strong Motion Accelerograph Committee.
