

ACKNOWLEDGEMENTS

The 1965 Third World Conference on Earthquake Engineering has been financed by a grant received from the New Zealand Government, through the cooperation of the Department of External Affairs, and a grant from the New Zealand Institution of Engineers. Without this assistance it would have been impossible for a comparatively small country such as New Zealand, to have undertaken a task of such magnitude.

In addition, we gratefully acknowledge contributions from:-

Certified Concrete Ltd.
P.O.Box 8538
Auckland.

Downer & Company Ltd., Civil Engineering Contractors
G.P.O.Box 1292
Wellington.
