

PUBLICATIONS

Preprints of Papers

Preprints for 4 special lectures and 111 papers presented to the Conference covering 5 Sessions, were printed by means of offset printing process. They were compiled into 4 files of different colors according to the schedule of the Conference, and were distributed to all participants.

Program, Abstracts of Papers, List of Participants

Pamphlets, containing the program of the Conference, abstracts of papers and the list of participants respectively, were prepared by the Organizing Committee of the Conference and were distributed to the participants.

Publications Presented to Participants from Abroad

At the opportunity of this Conference were published the following publications :

Earthquake Resistant Regulations of the World, published by the Organizing Committee, including full texts or excerpts of earthquake resistant regulations of 13 countries;

AIJ Structural Standards, published by the Architectural Institute of Japan;

Earthquake Resistant Design for Civil Engineering Structures, Earth Structures and Foundations in Japan, published by the Japan Society of Civil Engineers.

These three publications were offered to all participants from abroad.

Proceedings

The proceedings of the Second World Conference on Earthquake Engineering, Tokyo and Kyoto, July 1960, were compiled and published in three volumes after the completion of the Conference. They contain discussions, minutes of the Conference, pictures, etc. as well as full papers presented, and are available to all applicants.

Publications
