

How to be appropriately prepared for the PhD Interviews?

A YouTube Video Link: [How to prepare](#)

Points to remember:

1. Please use a well-lit and quiet room. Make sure you have a stable network connection. Make sure nobody else is present in the room during the interview.
2. Use either a white board, or a black/green board, or a white sheet attached to a board, that you can place vertically.
3. They should be placed at appropriate distance from the camera, such that what you are writing is visible (write larger if needed), as well as a good region of the white board/ the full white sheet is visible. Ensure you are also visible.
4. For white board use a marker/ for paper use sketch pen/ for black board use a white chalk to increase visibility. For white board, please use an angle such that there is no reflection from the light sources.
5. Important to check your setup beforehand. Does the mic work? Is writing on the board visible in the camera? It is necessary that you test your setup by making some video calls to your friends. Get their suggestions to improve your setups.
6. If possible, try to make a 20 seconds video recording yourself and check if all the points mentioned above are addressed.
7. Your interview may be terminated if use of any unfair means is detected or if your arrangement of appearing for interview is found not to follow the directions given above.
