

## SCDT-FlexE Centre Webinar

on

# “Printed Loudspeakers on Paper – Technology and Applications”

by

**Professor Arved Carl Hübler**

Professor and Head

Institute for Print and Media Technology

Chemnitz University of Technology, Chemnitz, Germany

On

**Date:** 16<sup>th</sup> November, 2021

**Time:** 7:30 PM to 8:30 PM

The session will be Chaired by

**Prof. Debdutta Ray**

IIT Madras

### Information about the speaker

Prof. Arved Carl Hübler is a Full-Professor at Chemnitz University of Technology since 1997. He is the founding director of the Institute for Print & Media Technology at that university. He was one of the first to establish basic research in printed electronics towards the end of the decade of 1990's and was a founding board member of the OE-A, the international Organics Electronics Association. He has been involved in several start-up companies in the field of printed electronics.

Prof. Hübler (born 1960) studied physics in Heidelberg and Berlin. He received his PhD in engineering in Berlin. The topic of his thesis dealt with optical scattering of light in printed patterns. He worked as Director for Technology at the largest Print and Media Company called Bertelsmann AG in Guetersloh, Germany.

Prof. Hübler has had a number of joint projects and co-operations with many groups in India including at Manipal University, IIT Bombay and IIT Kanpur.
